

The Middle School Girls Softball team finished its rebuilding season with one glorious win. With many of the girls playing softball for the first time in their lives, we found that though we were strong in the field it was hard to score runs. But glorious that win truly was. I think a shout went up that was heard around the Diablo Valley after our girls defeated North Creek. Hats off to the girls for holding their heads high throughout what could have felt like a long and laborious season. They worked hard and had fun. The coaches had a great time with the girls. A special note of thanks to Mike Toth for volunteering a ton of time in helping to make our season worthwhile and fun. Go Cougars!
